

MAN Truck & Bus

This MAN oversees everything!

**MAN Topline front view solution
Orlaco's front view solution**

Vision is our Mission

This MAN oversees everything!

MAN and Orlaco present the integrated Topline solution!

This homologated Topline front view solution replaces the front mirror and offers visibility for the driver at one monitor integrated into a dashboard:

- Navigation
- Radio
- Front view
- Rear view (extension)

Advantages of an Orlaco front view solution:

- Living up to the European legislation.
- More visibility around the truck: extension with rear view possible.
- One time installation: no re-positioning of the camera after passing the washingstreet.
- Compact and areodynamic camera.
- Enlarges the field of vision: less damage, a costsaving investment.
- Extension with navigation possible when using a DDIN monitor.

Orlaco's DDIN monitor:
Vision- and navigation solution

Part number	Name	Consists of:	Remark
0403800	Topline front view solution.	Camera CCC115, interface, 5 meter cable, monitor activator.	Integrated Topline solution.
